1. Ex parte Quayle Action

2. This application is in condition for allowance except for the following formal matters:

(i) In claims 28-33, the term “twisted wire rods” at line 3 in claim 28 does not have clear antecedent basis in the specification although the specification states that the coil is formed of a bundle of unit wires like litz wires. However, the use of “twisted rods” has no clear support. It is suggested to rewritten it as “twisted wires” instead. Furthermore, the limitation “double insulation wire” in claim 33 lacks support in the specification although it has support in the original claim 27. It is suggested that the specification be amended to provide a positive support. However, no new matter can be introduced; and

(ii) The withdrawn claims 1-3 and 7-16 which are drawn to non-elected species without traverse needs to be cancelled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
